

MORE FROM WOOD.

Egger PerfectSense Topmatt

**The hard-wearing matt laminate
for horizontal surfaces.**

Topmatt looks good for longer.

PerfectSense Topmatt laminate looks impressive, is **scratch-resistant** and hard wearing. It is ideal for **horizontal** surfaces, especially those exposed to heavy use.

Smooth and warm to the touch, the supermatt surface also features advanced **anti-fingerprint properties**. This combination makes the laminate PerfectSense Topmatt unique and universally applicable.

Areas of application

The laminate PerfectSense Topmatt is well suited for areas where matt design and high resistance to stress need to be skilfully combined. In addition to **worktops, tabletops, and desktops**, this also includes **shelves, furniture fronts, and door elements**.

Product structure

EGGER PerfectSense Topmatt laminate is a decorative laminate (HGS type) based on curable resins. The upper paper level is lacquered through a special production process and then cured using electron beams.
